

Panorama Residents Only

The Panorama Water Smart Landscapes grant program helps property owners convert **water-thirsty** grass to xeriscape, a lush yet **water-efficient** landscape.

For a limited time, the City of Cathedral City's Environment Conservation Division will be offering matching funds to those residents interested in converting their turf/green landscaping to xeriscape.

There are limited funds and funds will be awarded to those qualified residents on a first come first served basis.

For information on xeriscape and how to convert your landscaping please access the following website www.ciwmb.ca.gov/organics/xeriscaping

For information on how to apply for funding, please contact the City of Cathedral City Environmental Conservation Manager, Deanna Pressgrove at (760) 770-0369 or e-mail at: dpressgrove@cathedralcity.gov

Funded by the City's AB 939 Environmental Conservation Fund

Did You Know...

*That most of the water run-off in your
neighborhood is due to*

OVER WATERING?

*Creating a landscaping that is more resilient
in dry weather can **CUT BACK ON**
both maintenance time and water use?*
